PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience building responsive web applications, SaaS products, fintech dashboards, and developer-facing platforms. Strong in React, Next.js, TypeScript, JavaScript, REST API integration, and reusable component architecture. Focused on maintainable interfaces, performance, accessibility, and clear user experiences; experienced collaborating with product and backend teams to turn requirements into practical software.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React, Next.js, responsive design, component architecture, Tailwind CSS, Bootstrap, shadcn/ui
APIs & Data: REST APIs, Supabase, PostgreSQL, MySQL, data visualization with Recharts
Graphics & UI: Fabric.js, Canvas API, SVG, interactive editing, responsive UI
Engineering: Git, GitHub, GitLab, Postman, Vite, Webpack, debugging, code review, performance optimization, web accessibility, SEO

PROFESSIONAL EXPERIENCE

CHIEF ENGINEER | AiNameIt.com | May 2024 – January 2025

- Led frontend and product engineering for a web platform that helps users explore business-name ideas, domain suggestions, and taglines.
- Built responsive interfaces with Next.js, React, TypeScript, and Tailwind CSS, with attention to usability and page performance.
- Contributed to product planning and technical architecture as the platform moved from concept toward a usable product.

FRONTEND DEVELOPER | MSME Ecosystem Ltd | July 2023 – July 2024

- Developed a responsive developer documentation website using Next.js, TypeScript, and Tailwind CSS.
- Built a reusable React component library to improve UI consistency and reduce repeated implementation work.
- Integrated REST APIs in collaboration with backend developers and worked on data handling and user-facing states.
- Applied code splitting, image optimization, and caching techniques to improve frontend performance; supported testing, debugging, and code reviews.

WEB DEVELOPER | Toshconsult Technologies Inc. | April 2023 – October 2023

- Built responsive web interfaces with React, JavaScript, HTML, and CSS using mobile-first layouts.
- Applied Bootstrap and Tailwind CSS to create consistent, reusable UI patterns across projects.
- Collaborated with designers and developers and used Git/GitHub for version control and team delivery.

SELECTED PROJECTS

AiNameIt — Business Naming Platform | Next.js, React, TypeScript, Tailwind CSS, Supabase
Business-naming platform for exploring business-name ideas, domain suggestions, and taglines; contributed to frontend/product development and responsive user experience.

ProofArk — Certificate Generator | Next.js, React, TypeScript, Fabric.js, Supabase, Tailwind CSS
Certificate creation platform with template-based workflows, canvas editing, drag-and-drop elements, custom text styling, and live preview.

Sunnah Companion — Islamic Learning Platform | Next.js, React, TypeScript, Supabase
Islamic learning platform designed around stories, quizzes, prayer-time information, and Quranic resources, with a focus on accessible, responsive presentation.

Dobbiz Signature | Live project: https://dobbizsignature.vercel.app/

Adssembly | Live project: https://adssembly.vercel.app/

WorkProof | Live project: https://workproof-saas-appli-v4y2.bolt.host/

FoundSpec | Live project: https://foundspec-product-di-qyq3.bolt.host/

EDUCATION

B.Sc. Computer Science | Al-Hikmah University, Nigeria | Expected 2027
B.Sc. Mathematics Education | University of Ilorin, Nigeria | December 2015 – August 2021
